INTRODUCTION

Welcome to the NUI Galway Media Directory which is designed to give those working in the media an overview of the extent of expertise available in the University. The directory lists staff who are willing, when possible, to speak on their area of specialisation. They and their contact numbers are listed by their College, School or Research Institute in alphabetical order.

Staff willing to be interviewed 'as Gaeilge' are identified by the letter G following their names.

Please be advised that statements made by staff are informed comments on the area which they have expertise in. Unless it is specifically stated otherwise, they are not speaking on behalf of the University. Requests for University endorsed statements should be made to the Marketing and Communications Office.

An interactive online version of the directory is also available at www.nuigalway.ie/about-us/press/expertsdirectory/.

For further press queries please contact the Marketing and Communications Office at 091- 493361 or email michelle.nichroinin@nuigalway.ie.

Michelle Ní Chróinín
Press Officer

HOW TO USE THE MEDIA DIRECTORY

You can scroll through the NUI Galway Media Directory from page to page using the scroll bars and arrow keys as normal. However, the Directory also has additional navigation elements to make it easier to use on screen.

Indices

Individual entries in the Discipline and Expertise indices are clickable links to allow you to jump directly to specific areas.

Navigation bar

The top of the page has navigation buttons A-Z to allow you to reach specific areas within the publication. For example, click on a particular letter to go direct to the disciplines starting with that letter.

Bookmarks and thumbnails

The Directory also has built-in bookmarks and page thumbnails, which you can access from the navigation panel of your viewing software.

Search Function

Your web browser has a built in search engine usually found by pressing "command f" on Mac or "control f" on PC.

Links through Desktop and Mobile Devices

The Directory has built-in clickable links to emails which work on both desktop and mobile devices. Phone numbers are also clickable when viewed on a smart phone.

Browser

The functionality of the document performs best when viewed through the Firefox Web Browser.

RESEARCH INSTITUTES

Centre for Research in Medical Devices (CÚRAM)

☎ +353 (0)91 494404

CÚRAM, the SFI Centre for Research in Medical Devices is part of the Science Foundation Ireland Research Centre network. It aims to radically improve the quality of life for patients living with chronic illnesses, by developing the next generation of smart, implantable medical devices. CÚRAM's academic partners include the National University of Ireland Galway, Royal College of Surgeons Ireland, Trinity College Dublin, University College Dublin, University College Cork, University Limerick and Clinical Research Development Ireland. Clinical targets include cardiovascular illnesses, diabetes, neurodegenerative diseases such as Parkinson's disease, musculoskeletal and respiratory illnesses as well as soft tissue and wound healing. CÚRAM brings together clinical, industry and research teams with expertise in biomaterials, tissue engineering and regenerative medicine, glycoscience and device design.

INSIGHT Centre for Data Analytics

☎ +353 (0)91 495006

The Insight Centre for Data Analytics, funded by Science Foundation Ireland (SFI), is a joint initiative between researchers at Dublin City University, NUI Galway, University College Cork, University College Dublin and other partner institutions. Insight brings together more than 400 researchers from these institutions, over €100m funding, and with over 80 industry partners, to position Ireland at the heart of global data analytics research.

Institute for Lifecourse and Society (ILAS)

☎ +353 (0)91 495888

The Institute for Lifecourse and Society (ILAS) is a designated research institute for the applied social sciences at NUI Galway. The Institute supports applied research that informs policy development and practice to make a positive difference to people's lives. ILAS brings together existing work in relation to targeted populations, such as older persons, children and families, and persons with disabilities into one domain of research, teaching and policy. The core function of the Institute is the pursuit of interdisciplinary research in the social sciences by creatively integrating the rich and diverse intellectual resources from within the University and beyond.

Moore Institute for Research in Humanities and Social Studies

☎ +353 (0)91 493904

The Moore Institute stands at the forefront of NUI Galway's commitment to world-leading inquiry in humanities, culture, and society. Founded in 2000, and named after the distinguished Moore family of Moore Hall, Co. Mayo, the Institute has earned major national and international grants and led projects across the disciplines in areas from archaeology to ancient history and medieval studies, and from the early modern period to the present day, including politics, gender, and performance.

National Centre for Biomedical Engineering Science (NCBES)

☎ +353 (0)91 495165

The National Centre for Biomedical Engineering Science is an interdisciplinary centre of research excellence, which brings together scientists, engineers, information technologists and clinicians to foster team-based, problem-centred approaches to research. The Centre's research is focused on innovative therapeutic solutions to current medical challenges including cardiovascular disease, orthopaedics, reproductive medicine, and cancer. Established under the Programme for Research in Third Level Institutions (PRTLTI), with funding from Ireland's Higher Education Authority and private donors, the Centre aims to make discoveries of significant medical impact for the medicine of the future. These will include the underpinning mechanisms of disease, as well as the development of novel approaches to disease diagnosis and treatment.

Regenerative Medicine Institute (REMEDI)

☎ +353 (0)91 495166

The Regenerative Medicine Institute (REMEDI) is a world-class biomedical research centre focusing on gene therapy and stem cell research. The Institute is a partnership involving scientists, clinicians, and engineers in academic centres and in industry. Researchers at REMEDI work together to combine the technologies of gene therapy and adult stem cell therapy with the aim of regeneration and repair of tissues.

Ryan Institute for Environmental, Marine and Energy Research

☎ +353 (0)91 493548

The Ryan Institute is NUI Galway's hub for Environmental, Marine and Energy research and contributes to some of the most important national and international, long-term, environmental, marine and energy research issues. The Ryan Institute was established in 2010 from a merger of the Environmental Change Institute and Martin Ryan Institute for Marine Science. It promotes interdisciplinary excellence in environmental, marine and energy research with a commitment to international collaboration, the educational mission of NUI Galway and support for a regional, national and EU sustainable development agenda.

Whitaker Institute for Innovation and Societal Change

☎ +353 (0)91 494267

With a 200-strong research team, the Whitaker Institute at NUI Galway delivers policy-focused research in areas such as business, economic development, public-sector innovation and reform, and sustainable and inclusive societies. The Institute is named after the late pioneering statesperson Dr T.K. Whitaker who served as General Secretary of Ireland's Department of Finance from 1956 to 1969, during which time he steered Ireland's transformational programme of trade liberalisation and structural reform.

FACTS & FIGURES

NUI Galway has a total of

18,747
students,

of whom **4,333** are
postgraduate students

Student Numbers (2017/2018)

The University is comprised of:

College of Arts, Social
Sciences and Celtic
Studies

College of Business,
Public Policy and Law

College of Engineering
and Informatics

College of Medicine,
Nursing and Health
Studies

College of Science

The University employs

2,666

staff members

The University has over

90,000

alumni

NUI Galway has

115

active
societies
and over

50

clubs

Major sources of

EU

students

UK, France, Spain,
Germany, Italy,
Poland, Belgium
and the Netherlands

Major sources of

non-EU

students

USA, Canada, Malaysia,
India and China
